

# SCERTS® Implementation Training (Advanced Training)

**Presenter**  
**Emily Rubin, MS, CCC-SLP**

This course will provide specific guidelines for administering the SCERTS Assessment Process (SAP), a curriculum-based assessment designed to pinpoint those areas of development that support a child's social and communicative competence. This assessment tool facilitates the implementation of the SCERTS model, a comprehensive, multidisciplinary educational approach designed for children with Autism Spectrum Disorders (ASD). The SAP is an ongoing assessment process designed: 1) to establish a child's profile of developmental strengths and needs, 2) to determine meaningful, purposeful, and motivating educational goals based on a child's profile and functional needs, 3) to select the most appropriate learning contacts and teaching strategies, 4) to determine the necessary transactional support (interpersonal support, learning support, support to families), and 5) to monitor progress over time.

**All participants must register through CESA #1**

Please register online at [www.cesa1.k12.wi.us](http://www.cesa1.k12.wi.us)
